

Como ativar o Virtual Roster?

Para ativar esta opção o deverá entrar no Produto, e clicar na opção Schedule e de seguida ativar a opção Virtual Roster. Deverá fazer isto em todas as atividades onde pretenda que esta opção esteja ativa.

The screenshot shows the 'Schedule' step in the Pluralo interface for the activity 'Passeio de Barco pela Costa'. The 'Availability' section has three options: 'Unlimited', 'Fixed limit', and 'Limited by resources', with 'Limited by resources' selected. A blue arrow points from this selection to the 'Virtual Roster' section, which has a checked checkbox for 'Do not allocate resources to this activity until the first booking is made.' Below this, there is a note: 'This allows you to share resources between different products on a first-come, first-served basis. [know more](#)'. The interface also includes navigation buttons (Back, Cancel, Save, Next) and a 'Show older schedules' button.

Nota: Para poder utilizar esta funcionalidade deverá indicar o recurso associado à atividade.
