

Como adicionar recursos?

Saiba como adicionar recursos ao seu produto

Para adicionar recursos ao seu produto, deverá fazê-lo no separador "Schedule" no momento de criação.

Em "Resources" encontrará a opção de adicionar algum dos recursos que já tenha criado previamente, ou, caso não tenha qualquer recurso criado, poderá criá-lo nesse momento.

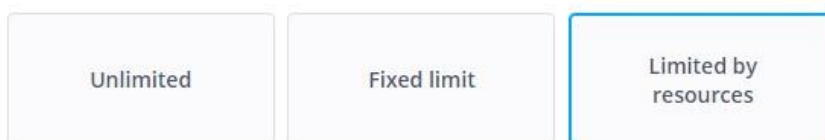

The screenshot shows the 'New Product' configuration page in the Pluralo system. The interface includes a top navigation bar with 'Tuk Tuk Lisboa', a search bar, and user options like 'New Booking', 'H Lover', and 'Logout'. A blue banner at the top of the main content area reads 'New Update: more features, improvements and better navigation.' with an 'Update Now' button. The 'New Product' section is divided into several panels. On the left, there are date and duration selectors (From: 15/01/2019, To: 01/03/2019, Duration: 02 Hours 00 Minutes) and a 'Repeat weekly' section with a 'Starts at' time of 10:00 and day selection (Mon, Tue, Wed, Thu, Fri, Sat, Sun). Below these is an 'Add time' button. On the right, the 'PRICES' section is collapsed, and the 'RESOURCES' section is expanded, showing a message: 'You have no resources, let's add one to your inventory.' with a green 'Create Resources' button. At the bottom of the form, there is an 'Add new schedule' button and navigation buttons for 'Back', 'Cancel', and 'Next'.

Tem ainda a opção de escolher fazer disponibilidades partilhadas entre recursos, ou seja, utilizar o mesmo recurso para mais do que um produto em simultâneo.

Para conseguir fazê-lo deverá ter escolhido acima a opção "Limited by Resources".

Availability - How to manage your resources availability.

The image shows three rectangular buttons for selecting resource availability. The first button is labeled 'Unlimited'. The second button is labeled 'Fixed limit'. The third button is labeled 'Limited by resources' and is highlighted with a blue border, indicating it is the selected option.

Nestas situações, deve definir o número de lugares que cada produto terá direito naquele recurso.

New Update: more features, improvements and better navigation.
