

Quero reativar uma campanha, como faço?

Após criar uma campanha pode suspendê-la a qualquer momento e reativá-la quando assim o entender.

Para consultar as suas campanhas entre no separador "Promocodes". Depois de encontrar a campanha que pretende reactivar (*para saber como procurar campanhas clique aqui*) no canto direito vai encontrar o símbolo de "play". Ao clicar nesse botão a sua campanha ficará novamente ativa.

The screenshot shows the 'Promocodes' management interface. At the top, there is a header for a specific campaign: 'Promo30' (Inactive), 'Tourist' audience, '2019-02-01 - 2019-02-28' validity, 'All Products' scope, '30%' value, and '0' usage. A blue box highlights the 'Actions' icons (trash, pause, play) for this campaign. Below this is a table of all campaigns. The table has columns for Code, Audience, Validity, Products, Value, Usage, and Actions. The 'Promo30' campaign is highlighted in red, indicating it is inactive. The 'Play' button in the actions column is the one to click to reactivate it.

Code	Audience	Validity	Products	Value	Usage	Actions
123456 Closed	Agent	0001-01-01 - 2001-01-31	All Products	10€	0	  
Promo50 Active	Agent	2019-02-01 - 2019-02-28	All Products	50%	0
